

# New Bedford Harbor Inferred PCB Levels - 0 to 12 inch depth May 2001

## LEGEND

PCB Levels 0 to 12 inch depth

- ≤ 10 ppm
- 10 - 50 ppm
- 51 - 500 ppm
- 501 - 4,000 ppm
- > 4,000 ppm

Sample Points (0-12" depth)

- PRE 9/98
- POST 9/98

Mean High Water Line  
(+ 2.4 ft NGVD)

Mean Lower Low Water Line  
(-1.4 ft NGVD)

Paved Road

Unpaved Road

## Note:

PCB values were interpolated from the sample points shown on the drawing. PCB values at any location were assumed to be equal to the PCB value of the closest sample point.
